

# Rapid-Blast™

Ever Scientific™ introduces quick-activated *Rapid Blast*

With just one pull of the *Rapid Blast* trigger you will see how *Rapid Blast* blows away the competition. In direct comparisons with similar products the *Rapid Blast* "duster" was shown to be most powerful. In most cases a one-trigger response generated two times the pressure of the leading competition.

## Features and Benefits:

- *Rapid Blast's* specially designed shroud emits 140 psi of pressure per triggering event. This is almost two times better than competition.
- *Rapid Blast* leaves no messy liquid residue often seen with other products.
- *Rapid Blast* is completely safe for the end user. It is non-toxic, non-corrosive, and non-conductive.
- *Rapid Blast* is completely safe for the environment. It contains no chlorine and is safe for stratospheric ozone. *Rapid Blast* Does not contain any volatile organic compounds that contribute to low level smog.
- *Rapid Blast's* high powered duster will clean almost any surface immediately with moisture free blasts.

**Catalog Number:**  
RAP-BLST

**Item:**  
10 oz. (280 grams)  
1-Applicator

**Packaging:**  
10 oz. aerosol can  
12 per case

**Clean it with  
Rapid Blast!**

- ✓ **High-Pressure**
- ✓ **Ozone Safe**
- ✓ **Controlled Delivery**
