# Presto

## DUO UV SLIDE PRINTER

**Features:**

- Dual hopper functionality, with two 100 piece hoppers
- On-demand and batch mode printing
- Option of different colors or charged/non charged slides
- Switch seamlessly from one hopper to the other
- Includes setup and 2 pre-installed templates
- Upward delivery system

The Presto™ Duo UV Slide Printer uses advanced ultraviolet laser printing technology and is ribbon and ink cartridge free. The patented-designed software system enables high-resolution and high-content 1D and 2D barcodes, alphanumeric, graphic, and logo printing. The high resolution prints are 500DPI and are easy to decode, permanent, crisp, and resistant to chemical solvents.

The printer is capable of being integrated into HIS/LIS systems. It has high speed printing capabilities and can print in less than 3 seconds for batch print, or up to 40 slides per minute. The low work noise of ≤65dB meets the hospital pathology and labs environment requirements and is capable of connecting to an external scanner for instant printing.

The printer is compatible with carbonized and non-carbonized slides. Supports loading routine slides and IHC slides simultaneously and can switch seamlessly from on-demand to batch printing.

| Specifications: | |
|---|---|
| Laser type: | Ultraviolet laser |
| Dimensions (L x W x H): | 16.5 x 9 x 15 in. (420 x 230 x 390mm) |
| Laser power: | 1 Watt |
| Work noise: | ≤65dB |
| Slide printing speed: | < 3 sec. per slide, 20 slides per min. |
| Resolution: | 500 DPI |
| Connectivity: | USB2.0 |
| Weight: | 77lbs. (35 kg) |
| Slide capacity: | 200 slides |
| Output tray capacity: | 40 slides |
| Power requirements: | AC, 110V, 50/60 Hz, 300 Watts |
| Certifications/Compliance: | ISO13485, CE and FDA |
